TRAINING & ASSESSMENT · LEARNING TECHNOLOGY · WEB DEVELOPMENT

Timothy Daly

I train people, and I build the digital tools they learn from.

Trainer and assessor (TAE40122) currently teaching at a Perth RTO, with fifteen years of coaching, facilitation and frontline leadership behind me. I've administered an enterprise LMS across a WA government department and I design and build interactive learning resources myself, so I can take training from the first draft to the classroom without handing it off.

Classroom delivery · Learning resource design · LMS administration · Web & AI development

QUICK SNAPSHOT

- Fremantle / Perth, WA · open to regional travel, hybrid or remote
- Certificate IV in Training and Assessment (TAE40122)
- Trainer & Industry Specialist, Equinim College (RTO 45758)
- Available now · full-time, part-time or contract
- Current National Police Check · WA driver's licence

15 yrs
training, coaching & facilitation

60+
staff trained at COVID-19 Quarantine Victoria

~20%
faster LMS training updates (ELMO)

12–25
students per diploma cohort

Profile

Most trainers deliver content someone else made. I design and build interactive learning resources, instructional slideshows and web-based tools, then teach from them. At Equinim College I deliver back-end web development, AI and machine learning, and blockchain units to diploma cohorts of 12–25 students, working within the RTO Standards. Many of my students are international, or are managing work and family alongside study.

Before that I spent several years in WA and Victorian government roles. At the Department of Transport I administered the ELMO learning management system department-wide and cut the online training update cycle by about 20%. At COVID-19 Quarantine Victoria I rolled out policy, infection control and de-escalation training to more than 60 support officers. Earlier, I coached new cabin crew at Jetstar and trained presenters at RTRfm community radio.

I also run **The Daly Creative**, a small studio doing web development, branding and practical AI automation for local businesses. The technical skills aren't a separate career. They're what let me build better training.

Roles I'm looking for

- Learning & Development Officer / Coordinator
- Trainer and Assessor
- Training Officer / Coordinator
- Learning Systems / LMS Administrator
- Workforce Development / Capability Officer
- Learning Facilitator

Core skills

Training & facilitation

- Adult classroom delivery to accredited qualifications
- Group facilitation with diverse learners
- Coaching, mentoring and peer support
- Calm delivery in high-pressure settings

Learning design & resources

- HTML-based instructional slideshows
- Interactive Three.js learning tools
- Field guides, signage and wayfinding
- Adobe Illustrator & Photoshop

Learning systems

- ELMO LMS administration
- Oracle DayForce HCM
- Microsoft 365 & Azure Active Directory
- WebEx, Citrix, intranet publishing

Web & AI

- React, Tailwind CSS, Bootstrap, JavaScript
- Node.js, Express, REST APIs, MongoDB
- Claude API, prompt engineering, automation
- Git/GitHub, Vercel, Netlify, Supabase

Experience

EQC

Trainer & Industry Specialist — Current

Equinim College of Technology (RTO 45758) · Perth, WA

October 2025 – Present · Part-time / sessional

- Deliver classroom training in back-end web development, AI and machine learning, and blockchain to diploma cohorts of 12–25 students, working to accredited qualifications within the RTO Standards.
- Teach culturally and educationally diverse cohorts, many of them managing work or family alongside study.
- Design and build student-facing resources: an interactive Three.js campus wayfinding map, rendered floor plans, room signage and HTML-based instructional slideshows.
- Produced a custom field guide for students attending the Black Swan Summit 2026 at UWA.
- Mentor students toward industry-ready practice, including writing observational support letters.

TDC

Founder & Creative Director Current

The Daly Creative · Perth, WA

February 2025 – Present

- Brand identity, web development (React / Tailwind), print design and AI automation for clients in hospitality, health, framing and tech.
- Build reusable AI workflow automations and Claude API integrations.
- Run the full client lifecycle on my own: scoping, design, build, deployment and support.
- Advise small businesses on practical, low-risk AI adoption.

DoT

Technology Administrator

Department of Transport, Western Australia · Perth, WA

June 2024 – January 2025 · Full-time

- Administered the ELMO learning management system department-wide, covering content updates, user administration and compliance training delivery.
- Redesigned the online training update process, cutting cycle time by about 20%.
- Administered Oracle DayForce payroll and People & Culture systems, and built in-house Employee Self Service updates that reduced reliance on costly external Oracle support.
- Automated staff notifications for banking detail changes, reducing inbound HR queries.
- Second-in-charge in a team of six, giving technical guidance and liaising with Executive Directors, management and Licensing Services.

SC

Court Technology & Resource Officer

Supreme Court of Western Australia (Department of Justice) · Perth, WA

July 2023 – May 2024

- Led the development and launch of the Supreme Court staff intranet.
- Moved courtroom booking from a manual process to an integrated digital calendar, and supported staff through the change.
- Engaged stakeholders from Executive Manager through to the Chief Justice of WA.
- Coordinated the response to significant AV and system incidents, keeping proceedings running.

DC

Court Support Officer

District Court of Western Australia (Department of Justice) · Perth, WA

November 2022 – July 2023 · Full-time

- Managed civil subpoena processes end to end under strict security and confidentiality.
- Primary contact for court users, many of them distressed, and initiated process improvements that made the registry more efficient.

AEC

Supervising Electoral Officer

Australian Electoral Commission · Melbourne, VIC

2022 Federal Election

- Supervised polling operations at the Maribyrnong branch, then moved to the Airport West counting centre for the count.

CQV

Resident Support Officer / Team Leader

COVID-19 Quarantine Victoria (Department of Justice) · Melbourne, VIC

December 2020 – April 2022 · Full-time

- Facilitated training and the rollout of policy and procedure updates to more than 60 support officers, covering infection prevention and control, PPE, emergency response, de-escalation and team building.
- Led daily operations as Acting Team Leader and Operations Coordinator: planning, rostering, duty allocation and HR support.
- Monitored resident welfare by radio and coordinated safe resolutions with site management for people in acute distress.
- Consulted stakeholders through frequent and significant operational change.

WP

Digital Solutions Specialist

White Pages Australia (Sensis)

November 2018 – October 2020

- Facilitated remote training and upskilling sessions across both Sensis brands.
- Devised and published metrics for customer service delivery, and analysed call centre trends to find improvements.
- High Achievers Award and Top Overall Sales & Retention Performer.

MB

Customer Retention Specialist

Medibank Private · Docklands, VIC

February 2018 – November 2018

- Developed processes and workflows to help sales staff work more efficiently, within strict legal compliance and QA requirements.

JQ

Cabin Crew · Coaching & Training Assistant · Peer Support Officer

Jetstar Airways · Melbourne, VIC

March 2013 – February 2018

- Coached and developed new frontline cabin crew as a Training Assistant, and gave structured peer support to colleagues as a formal Peer Support Officer.
- Delivered service and safety on A320/A321 domestic routes in a highly regulated environment.

- 98% average across ground school and EP/IP training. National Employee of the Month twice.

RTR

Presenter & Chief Production Director

RTRfm 92.1 Community Radio · Mount Lawley, WA

February 2008 – November 2014 · Community role, alongside paid work

- Scouted, recruited and trained new presenters and collective members to broadcast standard.
- Presented and ran the live panel on a multi-award-winning talk programme for five-plus years.

IAG

Sales & Service Specialist

SGIO Insurance (IAG) · Subiaco, WA

2012 – 2013

- Ranked #1 consultant in WA for Q4 2012. Seconded as Acting Operations Administration Coordinator (Team Leader), coaching sales performance and buddying new staff.

+3

Earlier career

2003 – 2012 · Perth, WA

- **Kleenheat Gas (Wesfarmers)**: Customer Service Officer, Acting Team Leader, helped train new staff.
- **Westnet / iiNet**: Senior Customer Service Consultant, buddied new staff and helped the training team with inductions.
- **Starland Video**: Assistant Store Manager, five years from high school, left as 2IC.

Selected projects

LEARNING RESOURCES

3D campus wayfinding map

Interactive Three.js map helping new Equinim students find their way around campus, backed by rendered floor plans and room signage.

HTML instructional slideshows

Browser-based teaching decks I build and deliver from for diploma units in web development, AI/ML and blockchain.

Black Swan Summit field guide

A custom field guide produced for Equinim students attending the Black Swan Summit 2026 at UWA.

ELMO training update process

Redesigned how online training content is updated at the Department of Transport, cutting cycle time by about 20%.
